

JAMSHEDPUR CO-OPERATIVE COLLEGE, JAMSHEDPUR

Program outcome of M.Sc. Chemistry

M.Sc. in Chemistry provides knowledge in Chemistry with specialization in one of the branches of Chemistry. It develops ability to conduct experimental work and analyze the data with suitable interpretation. It prepares students for taking up challenging responsibility in the areas seeking knowledge of Chemistry. After PG in Chemistry the students have variety of career prospects in R & D, teaching as well as industries as given below :

- As Research Associate
- As Chemist
- Doctoral research work
- As Assistant Professor (Chemistry)
- Inspector of Quality Control
- Post Graduate Teacher (Chemistry)
- May work as online Mentor for various platform
- Pharmacy Assistant
- Establishing chemical based small scale industries.
